

AHMED AYMAN

Full Stack Developer | .NET / Angular Developer

+20 1128478194 | ahmedaymanmohmed.sc@gmail.com | linkedin.com/in/ahmedayman-a666893a0

PROFESSIONAL SUMMARY

Full Stack Developer and Computer Science student at Cairo University with hands-on experience building web applications and backend systems using Angular, C#, .NET, ASP.NET Core, ASP.NET MVC, Entity Framework, and SQL Server. Skilled in developing RESTful APIs, applying Clean Architecture and MVC patterns, designing database-driven applications, and building responsive user interfaces with HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS. Familiar with Java, Python, Docker, Git/GitHub, Jira, and Slack. Developed multiple full-stack projects, including an e-commerce system, a gym management dashboard with authentication and role-based access, and a 3D healthcare platform integrating Angular, ASP.NET Core APIs, and Python-based AI models.

CORE COMPETENCIES

Angular | C# | ASP.NET Core | ASP.NET Core MVC | Entity Framework Core | RESTful API Development | Clean Architecture | ASP.NET Identity | SQL Server / MySQL / SQLite | HTML | CSS | JavaScript | Bootstrap | Tailwind CSS | OOP | Data Structures & Algorithms | Git & GitHub

TECHNICAL SKILLS

Languages & Frameworks: C#, Angular, JavaScript, HTML, CSS, Java, Python (Fundamentals), C++, .NET Core, .NET Framework, ASP.NET Core, ASP.NET Core MVC, EF Core, ASP.NET Identity

Frontend & Styling: Angular, Bootstrap, Tailwind CSS, HTML5, CSS3, Responsive UI Design

Tools & Concepts: Visual Studio, Git, GitHub, Docker, Jira, Slack, SQL Server, MySQL, SQLite, OOP, RESTful APIs, MVC Architecture, RBAC, Data Structures & Algorithms, Clean Architecture

PROJECTS

E-Commerce System — ASP.NET Core

2026

Personal Project | ASP.NET Core, Clean Architecture, EF Core

- Built a complete e-commerce backend system with a clear, scalable clean architecture, covering product management, order handling, and basket management.
- Implemented authentication and security, payment integration, and performance optimization using caching to support a production-ready, maintainable solution.

Route Fitness — Gym Management Admin Dashboard

2024

Route Academy | ASP.NET Core MVC, EF Core, ASP.NET Identity

- Developed a full-stack gym management dashboard covering 4+ core modules (members, trainers, plans, bookings), consolidating gym operations into a single admin interface.
- Implemented secure role-based access control (RBAC) with ASP.NET Identity, restricting system access across multiple admin permission levels.
- Built gym plan management functionality supporting dynamic pricing, duration configuration, and active/inactive status toggling for all membership plans.
- Applied clean architecture using ASP.NET Core MVC and EF Core, improving code maintainability and reducing coupling across application layers.

MediCare — 3D Intelligent Healthcare Platform

2025 (Graduation Project)

Team of 4 | ASP.NET Core (Backend), Angular (Frontend), Python (AI), SQLite

- Co-developed a 3D intelligent healthcare platform integrating 3 AI models with a patient/doctor/admin system, reducing time and effort needed to access appropriate medical care.
- Built patient-facing search and booking features, plus doctor-facing tools for appointment management and structured access to patient medical histories.

- Designed and implemented REST APIs in ASP.NET Core connecting an Angular frontend with 3 Python-based AI models for symptom extraction, specialty recommendation, and emergency severity detection.

Independent Software Projects (Self-Directed)

2023 – Present

- Architected and developed 10+ RESTful API endpoints using ASP.NET and C#, applying MVC design patterns and Entity Framework with optimized LINQ queries for clean, maintainable, scalable codebases.

PROFESSIONAL EXPERIENCE

Volunteer Team Leader & Session Presenter

2022 – Present

Resala Charity Organization | Cairo, Egypt

- Led and coordinated volunteer teams of 10+ members across multiple community initiatives, improving project delivery efficiency by 30%.
- Designed and delivered 15+ educational sessions to audiences of 50+ participants each, strengthening public speaking, curriculum planning, and presentation skills.
- Resolved interpersonal conflicts and optimized team workflows under pressure, contributing to a 25% improvement in volunteer retention and engagement rates.

EDUCATION

Bachelor of Science, Computer Science — Faculty of Science

April 2022 – April 2026

Cairo University, Cairo, Egypt | Certification: Skills for Programming and Fundamentals
